* Bei der Bestellung vom Lasthalteventil muss bei allen Maschinen bis SN 301 902 die Pos.5 mitbestellt werden. Das vorhandene Hydraulikrohr muss aufgrund des neuen Lasthalteventils auf den neuen Abstand gekürzt werden.

For orders concerning the hydraulic lock on the hydraulic ram please note that Pos. 5 is inevitable for machines until serial number SN301 902.

On those machines the hydraulic pipe needs to be cut down to take on the new hydraulic-lock.

Pour toutes commandes de clapets pour les machines dont le numéro de série va jusqu'à 301 902, il faut commander le clapet de la position 5.

Les tuyaux hydraulique rigides doivent être raccourcis pour le montage du nouveau clapet.

*Zum Lasthalteventil bitte die letzte Seite beachten! / Please, note the last page "Counter balance valve"! / Veuillez noter la dernière page " Valve d'équilibrage ", svp. !

Dichtsätze für Hydraulikzylinder / Seal for hydraulic cylinder / Pochette de joints pour vérin hydraulique

Für die Bestellung von Dichtsätzen für Hydraulikzylinder bitte unbedingt folgende Nummern angeben:

- ID-Nummer des Hy.-Zylinder (auf dem Kolben eingeschlagen)
- Maschinentyp
- Baujahr
- Seriennummer

When ordering seals for hydraulic cylinders indicate following numbers, please:

- ID-number of hy. cylinder (is printed on the cylinder)
- Type of machine
- Year of construction
- Serial number of the machine

Pour la commande des pochettes de joints pour les vérins hydrauliques, veuillez indiquer impérativement les numéros suivants, s.v.p. :

- ID - numéro du vérin (estampillé sur le cylindre)
- Type de machine
- Année de fabrication
- Numéro de série
